

CWDM Mux/Demux Packed in ABS Box

Key Features

- Low insertion loss
- Wide pass band
- High channel isolation
- High stability and reliability
- Epoxy free on optical path
- Much lower cost per channel than DWDM
- Protocol Transparent
- Simple to install and use

CWDM Mux/Demux Module are based on thin film filter technology. CWDM technology provides the flexibility to increase capacity of existing fiber infrastructure by enabling multiple channels (wavelengths) over the same fiber cabling. Each channel carries data independently from each other, allowing network designers to transport different data rates and protocols for different customers or applications.

DK Photonics offers a full range of CWDM Mux/Demux and Optical Add Drop Multiplexer (OADM) units to suit all kinds applications and network solutions. Some most common ones are: Gigabit and 10G Ethernet, SDH/SONET, ATM, ESCON, Fiber Channel, FTTx and CATV. The products adopt hermetic package craft and environmental stability. CWDM can solve the shortage of fiber and transparent transmission of business, and reduce the cost of network building. With low-cost low power consumption and small compact, it is widely used in metro aggregation and access layer to do transmission on a short time.

Our CWDM Mux/Demux products provide up to 16-channel or even 18-channel Multiplexing on a single fiber. Standard CWDM Mux/Demux package type include: ABS box package, LGX package and 19" 1U rack-mount. The products are Telcordia GR-1221/1209-CORE qualified, and RoHS compliant.

Applications

- Line monitoring
- WDM network
- Telecommunication
- Cellular Application
- Fiber Amplifier
- Access Network

Package Dimension	mm	L100xW80xH10		L100xW80xH10 L120xW80xH18 Mux&Demux)		L120xW80xH18 L140xW115xH18 (Mux&Demux)	

1. The above specification is without connector.
2. IL is 0.3 dB higher and RL is 5 dB lower for each connector added.
3. Channel count is from low to high for mux and high to low for demux if mux & demux are packaged in one cassette.
4. Other specifications can be made on customer request.

Order information

P/N: CWDM-①-②-③-④-⑤-⑥-⑦-⑧

When you inquire, please provide the correct P/N number according to our ordering information, and attach the appropriate description would be better. If need any connector, we do not recommend choosing a 250µm bare fiber pigtail.
